## LENS

Our moto goggle lenses incorporate specific elements to achieve the highest level of clarity. Each lens is scratch resistant for ultimate durability. To keep your vision clear in tough conditions, our moto lenses are made with built-in posts that work with our tear-offs. Mud never saw this coming.

## TRIPLE LAYER ISOTRON™ FACE FOAM

The most comfortable face foam on the planet, hands down. Our Isotron™ foam is made of three different densities, each one adding to the comfort and functionality of your goggles. The topmost layer features Spy's moisture-wicking Dri Force™ fleece; super-soft and comfortable, this fleece wicks the sweat away from your face and out through the foam. All day comfort and crystal clear views courtesy of Isotron™.

## SCOOP® VENTILATION

Goodbye fog. Our patented Scoop® venting system eliminates lens fogging by promoting airflow behind the lens. The Scoop® system forces air through strategically placed vents of varying aperture on the goggle frame to shut down fog. Your vision will thank you.

SCOOP® TECHNOLOGY IS PATENTED BY SPY OPTIC. U.S. PATENTS: 5,610,668; 5,898,468; 5,801,805; 6,050,684; D470,882 S. OTHER DOMESTIC AND FOREIGN PATENTS PENDING.

## SWEAT ABSORPTION SYSTEM® (SAS)

Eliminate sweat with 600% more sweat absorption power than ordinary face foam! This removable, replaceable foam accessory allows you to ride longer and stay drier. Caution, use of our SAS® system may lead to increased ride time and more radness than you can handle.

## SILICONE RIBBING

Designed to keep your goggles fixed firmly on your helmet, this thin strip of silicone goes the distance. Take your best shot! Our goggle straps stay on even if you don't.

## SAND GOGGLE

**SAND GOGGLE** Sand goggles feature a tinted lens and closed cell vent foam. Sand never stood a chance.

## ENDURO SERIES

**ENDURO SERIES** Enduro series goggles feature a posted dual lens to keep you going through the thick and thin.

# SPY+ 2010 DEALER CATALOG
